Repeated mailing address verification

Prague

Dear user,

The mailing address in your mojeID account has recently been updated. Due to this change, a new PIN3 code has been generated, which will make it possible to identify the account again.

Why is it good to have an account verified with a PIN3 code?

Full activation of the mojeID account ensures that your mailing address is authentic. This will improve your credibility when using services that support mojeID, such as e-shops, discussion forums or online dating services.

Your PIN3 code: 12345678

Verification with a PIN3 code is possible after logging to the mojeID profile at **www.mojeid.cz**.
For detailed instructions on how to complete account verification using the PIN3 code, see the back page of this letter.

Basic information about your account:

exam001.mojeid.cz

Exam Specimen

exam@specimen.cz

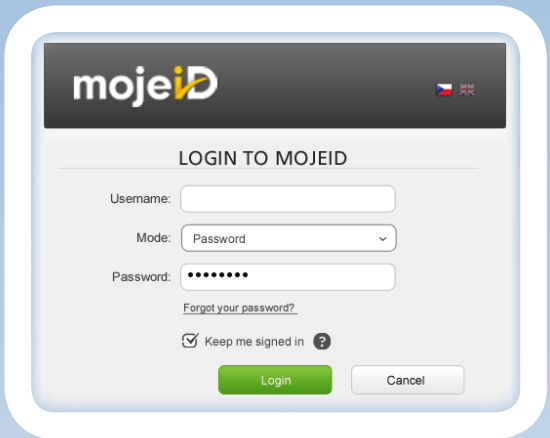
QR kód

You can use the mojeID card as your personal business card; the QR code contains your name, surname, e-mail and phone number.

How to complete the account verification using the PIN3 code?

STEP 1
LOGIN TO YOUR MOJEID ACCOUNT

Login to your mojeID account profile at mojeid.cz with your username and password.

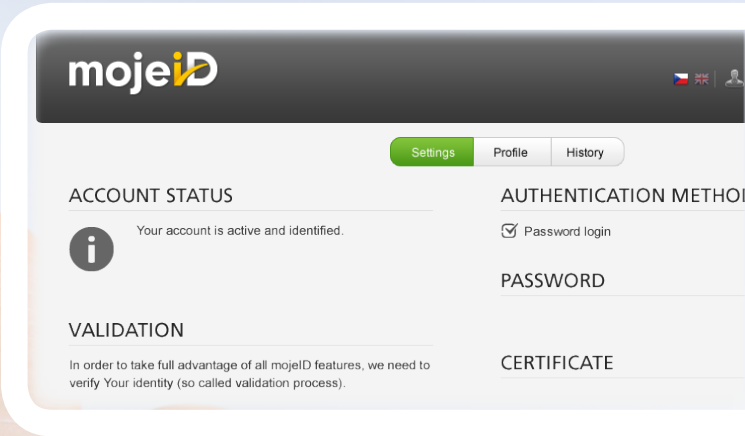


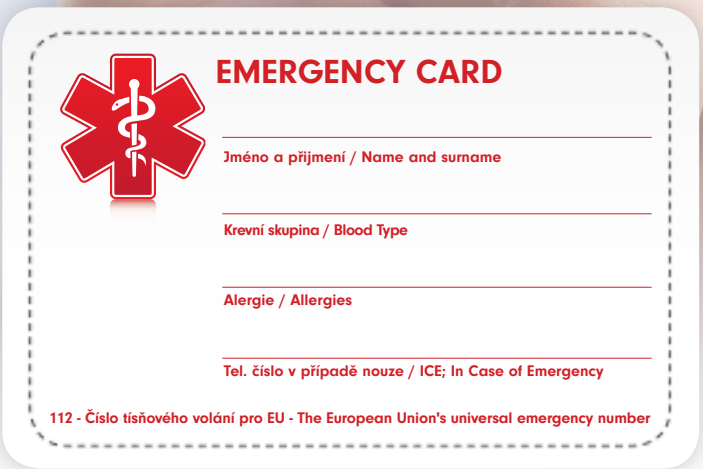
STEP 2
ENTER THE PIN3 CODE

Click on the "Settings" tab on the top bar of your account. Enter the PIN3 code from the front side of this letter and confirm.

STEP 3
CHANGE IN ACCOUNT STATUS

If you entered a correct PIN3 code, your account status will change from "Active and conditional identified" to "Active and identified". Now you can enjoy all the benefits of a fully activated mojeID account.





STEP 4
FILL IN THE EMERGENCY CARD

In case of emergency, properly filled data in the emergency card can save your life.

Service mojeID operates CZ.NIC, z. s. p. o., is an interest association of legal entities, recorded in the Associations register maintained by the Municipal Court in Prague, File ref.: L 58624.
